

Construction Disputes: A Comprehensive Guide on How to Avoid Settlement Table Risks

Seminar or Event

9.22.20

Event Sponsor: *The Knowledge Group*

Live Webinar

3:00 pm to 5:00 pm (ET)

Steven Nudelman, a partner in the firm's Litigation Department, is on the faculty for a live webcast on "Construction Disputes: A Comprehensive Guide on How to Avoid Settlement Table Risks." The program, to be presented on Wednesday, September 23, 2020 from 3:00 pm to 5:00 pm (ET), is sponsored by The Knowledge Group.

Lack of proper project management and documentation, compliance with the preset project standards, and excessive costs are often the reasons behind construction disputes. For years, these disputes have created significant challenges and risks in the construction industry.

Fortunately, the industry continues to work for the reduction and mitigation of disputes. With technologies that help to transform project management, successful project outcomes can now become more attainable. By proactively evaluating effective risk mitigation programs and developing effective dispute resolution techniques, it also becomes easier to avoid potential settlement table risks.

This live webcast will feature an in-depth discussion of construction disputes. Some of the major topics that will be covered by Mr. Nudelman and his fellow panelists include:

Mr. Nudelman concentrates his practice in construction law and the representation of members of the construction industry across a broad spectrum of matters. His clients include owners, contractors, design professionals, subcontractors and suppliers involved in public and private construction projects throughout New Jersey. He also represents community associations, unit owners and developers in lawsuits involving construction defects, budgeting and financing issues, and condominium governance.
