

## Transactional Tax Issues

We integrate tax considerations into every aspect of corporate and transactional work, providing guidance on structuring deals, drafting tax-advantaged agreements, and identifying potential tax risks and opportunities stemming from mergers, acquisitions, and the formation, operation, or dissolution of corporations, partnerships, limited liability companies and other entities. Our work covers the complete range of tax requirements involved in transactions for businesses. For clients in the commercial real estate sector, we advise on the tax implications of real estate development and transactions and provide guidance related to property tax appeals, abatements, and exemptions.
